N.R.H.Q.E. PLAN No. HQ / 03 / 04 - 2009

NOTES :

1. All dimensions are in millimetres.
2. Boards to be painted on both sides in retro reflective yellow paint with letters preferably engraved or painted in black.
3. 12 mm deep & painted in black.
4. Slabs should be handled and transported preferably in upright position.
5. All parts to be precast in workshop, concrete grade M-25 to be used.
6. Station names should be indicated in Hindi, English and the regional language of the area in which the station is situated as per Para 4.04 of Indian Railway Works Manual.
7. Station Name Boards to be fixed at both ends of platforms, generally at right angles to the track (actual angle to be determined by ensuring clear visibility from approaching trains without infringing the schedule of dimensions).
8. In case of long platforms, in addition to principal name boards at the ends of platform, Secondary name boards at intermediate positions, usually one board for two coaches may be provided parallel to track with same size & height of letters, i.e. 300 mm painted on the side facing the track.
9. At major stations, 1 (one) additional board of same size as the main boards or boards smaller than Principal / Secondary name boards should be provided facing the track, at future tracks, shelter posts, light posts or other fixed structures. Where letterary name boards are provided, it may not be necessary to provide Secondary Name Boards.
10. Length of Principal & Secondary Name Boards be kept to suit the total written text engraved or painted on the Name Boards, subject to minimum length of 300 mm.
11. All Station Name Boards should be so illuminated as to be clearly visible at night and the Principal Name Boards to be illuminated in a brighter light.
12. Other details of Para 4.04 of IRWM to be compiled as per the height of the lower edge of the Name Board will be kept 224 above the platform level.
