Sub- System Improvement.

Whenever Material for use at site is issued through departmental staff the incharge of the store should ensure the receipt from the intended recipient. During a Vigilance investigation, it was observed that the Store incharge did not have any documentary proof of receipt of materials by intended recipient when the material was sent to site through departmental staff. This situation can lead to difficulties in accountal and scope for pilferage of material.

Please ensure that the above instructions are advised to all concerned.

The receipt of this letter may please be acknowledged.
