--

During a vigilance check, it was noticed that pre-inspected material was replaced from vendor by concerned official on pretext of saving the material from expiry of shelf life. These replacements were carried out without any pre-inspection even when such replacement is not permissible.

In view of above, it is advised to procure material after close planning so that procured material may be used before expiring of shelf life. Further no such replacement should be carried out without pre-inspection of material.

Above instructions should be adhered strictly.

DA/As above.
