No. 770-W/O/NR-SOR-2010/2016-17/Policy

Dated: 05.10.2021

Sr. DEN/Coordination  
Delhi, Firozpur, Lucknow, Moradabad and Ambala  
Northern Railway

**Sub:** System Improvements regarding use of high grade of concrete (M-35) for PF surfacing and footpath construction.

**f:** Sr. Dy. General Manager/NR Letter No. Vig/PC/V4/2020/01/01840/Com/Engg. dated 06.08.2021. (Copy enclosed). S-40-53

\*\*\*\*\*

Vide SR. Dy. General Manager/NR office letter under reference (i) above, it is informed that during the check, it has been found that huge quantity of high grade concrete (M-35) which was particularly mentioned for the bridge work was used for PF surfacing and footpath construction.

Therefore, it is advised that the use of concrete for the PFs, footpaths and circulating areas should be done as per grade of concrete specified in approved drawing using relevant items of the USSOR instead of NS item of concrete for bridge work or concrete item from chapter of USSOR for bridge work.

This issues on the approval of Principal Chief Engineer/NR.

**Encl.: As above**
